

▶ Extended Life String Wound Filter Cartridges ◀

▶ **BIG BLUE EXTENDED LIFE** cartridges have a longer life than regular cartridges as the larger sediment particles get caught by the outer part of the filter and the smaller particles are filtered on the inside part. Therefore the filter won't block as fast as a regular Big Blue or **DGD**, A super element used for drinking water, residential and commercial.

▶ **BIG BLUE EXTENDED LIFE STRING WOUND** that filter is made with two microns, tight micron inside loose micron outside.

▶ **BIG BLUE EXTENDED LIFE STRING WOUND** Cartridges are made of polypropylene yarn. They are available in nominal micron ratings of **25/01 - 50/05 - 75/25** in lengths of 10" or 20".

Model #	Micron	Size	Per Box	Wgt.
G25/01P10BB	25/01	4.5" x 10"	8	13
G50/05P10BB	50/05	4.5" x 10"	8	12
G75/25P10BB	75/25	4.5" x 10"	8	12
G25/01P20BB	25/01	4.5" x 20"	4	12
G50/05P20BB	50/05	4.5" x 20"	4	10
G75/25P20BB	75/25	4.5" x 20"	4	10

(All Weights Are Aprox)

Also available in Fibrillated polypropylene and other micron rating.
